THE SERVICE DEPT

WE REPAIR VIRTUALLY ANY MAKE OR MODEL OF AIR TOOL

WHAT WE DO

Michigan Pneumatic Tool is a full service air tool company celebrating 70 years as a leader in the design, distribution, manufacture, repair and rebuilding of industrial air tools. At MPT we service construction, industrial, demolition, bolting and foundry tools. Our service department is staffed by experienced technicians that are trained to rebuild any industrial grade air tool. We take pride in the ability to service virtually any make or model whether it is current or discontinued.

HOW WE DO IT

Send your tool to MPT and experience the best service in the industry:

- ◆ An **estimate** is provided for repair within 3 business days of receiving your tool(s).
- ◆ Every tool is completely **disassembled**, cleaned and examined for wear and tear during the estimate process.
- ◆ Worn or damaged parts are **replaced** to reduce future maintenance costs or unnecessary tool replacement.
- ◆ Every tool is **tested** by our technicians then painted before it is returned to you.
- ◆ Note: When the cost to repair exceeds 50% of the cost of the tool, we will quote you a **replacement tool** as an option during the estimate process.
- ◆ Our tool repairs are completely **guaranteed**.

THE PARTS YOU NEED

Michigan Pneumatic Tool has an unrivaled parts inventory that includes brand name, hard to find, obsolete, and discontinued parts. Over the years our engineers have identified common weaknesses in many popular tool designs, and have developed OEM level replacement parts that make the rebuilt tool perform and last longer than the original. We stock a comprehensive variety of parts, from the smallest washers to the largest housings, for all industrial air tools serviced by Michigan Pneumatic Tool. We have the parts you need, when you need them.

REQUEST A REPAIR

Scan the QR Code to download our "Request a Repair" Form. Complete the form and include it with the air tools you are sending in to be estimated.
