

T3-VDEX INDUSTRIAL GRADE ATTACHMENT

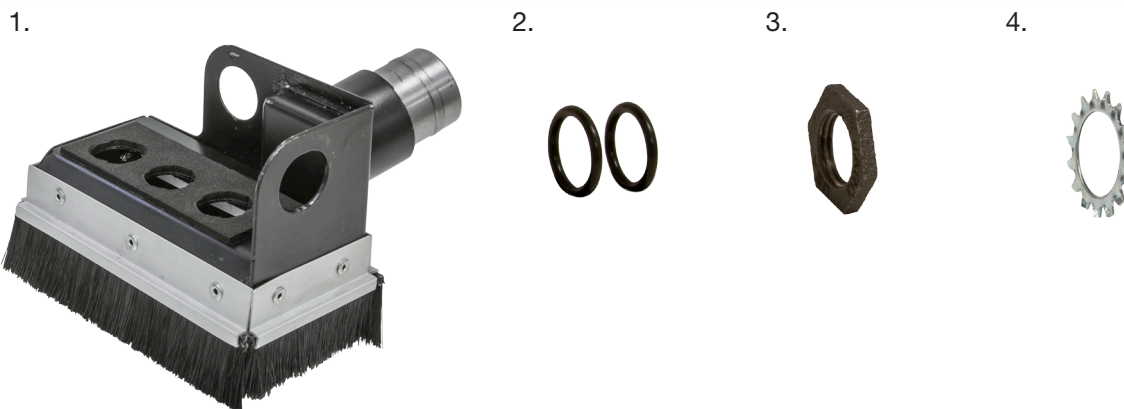

T3-VDEX is designed to easily attach to the T3 triple piston scabblers using the factory live handle assembly. The live handle can be installed in either side of the T3 scabbler (shown in perpendicular configuration.) The live handle and dead handle retain the aluminum skirt on to the body of the T3 scabbler. The bristled skirt surrounds the pistons to contain dust and debris to allow the vacuum to draw the dust away from the work area.

NOTE: For job sites requiring water dust suppression use the **VDEX WATER PLUG**, see page 18 for more accessories.

T3-VDEX COMPONENTS

Get OSHA Table 1 Compliant / Universal Kits

T3-VDEX Kit Consists of:

Part No.	Description
1. T3-VDEX-BLK	Housing
2. OR-6227-12	O-Ring (2)
3. N3-500NPT	1/2" NPT Jamnut
4. TWB-W70	7/8" Washer
